

# CHRONOGRAPH TEST CERTIFICATE

On behalf of: **Sussex Pest Control**  
Date of test: 9 February 2005  
Gun Type: Airarms TX200 Mk 3 0.22 calibre Air Rifle  
Serial Number: 141324  
Pellets Used: RWS Super H Point  
Weight of Pellets: 14.2 grains  
Test Machine: Alpha Chrony Chronograph  
Test Results:  
    1 575 feet per second  
    2 574 feet per second  
Average: 574 feet per second

PASS

Conclusions: These results give a kinetic energy at the muzzle of 10.4 foot / lbs which is well within the legal limit.

Recommendations: Check power regularly (e.g. monthly) to check that the rifle is working effectively. Aim to have the power between 11.0 and 11.5 ft/lbs, ensuring the gun remains legal whilst having adequate power for pigeon shooting.

Notes: Rust and blood noted on barrel. Shooting slightly to the right.

Tester: Nigel Batten/Terry Doe,
