An efficient and friendly service is the aim for our specialised team. With experience in pest control and a range of related problems we pride ourselves in leaving our customers satisfied and pest free.

In the competitive and hygiene conscious world of catering we are able to tailor an individual service to all establishments that deal with foodstuffs, whether it be for human or animal consumption.

This service is particularly important for food businesses and will form an integral part of compliance with the food safety (General Food Hygiene) Regulations 1995.

At your home we are on call to rid you of the range of pests that blight your life. Safety features high on priorities both to you, the customer, and your pets.

Our technical operators are highly trained and we use only the best and latest techniques to eradicate and control the following pests:

- Rats
- Mice
- Squirrels
- Rabbits
- Moles
- Ants
- Moths
- Beetles
- Pigeons
- Wasps
- Bees
- Bedbugs
- Flies
- Fleas
- Cockroaches
- Woodlice
- Silverfish
- Seagulls

And others

### Fly Units and Screens

We are able to supply a selection of UV fly units and screens that are suitable for residential and commercial needs.

### Bird Proofing

We offer a service preventing birds from gaining access to sensitive areas including Spiking and the use of high quality nets. We offer a free survey to give various methods and estimate costs of work.

### Services

- The control or removal of creatures regarded as pests
- Bird deterrents and proofing
- The supply and maintenance of various pest control products inc. Fly Units

Service Agreements are available in situations where a regular inspection is required.

Modelled to suit your individual requirements you are guaranteed the oversight required by health and safety regulations.

Feel free telephone us to discuss any infestation problem. We are happy to advise and offer solutions.
